Ethics

This chapter is taught only during the November 8–9 and December 12–13 webinars.

This chapter discusses important issues that help tax practitioners comply with their ethical obligations. Topics include discussions of ethical considerations when giving tax opinions, the ethical and legal benefits of email disclaimers, and the ethical duties for a tax practitioner serving as a trustee or other fiduciary. The chapter also includes ten case studies that illustrate real-life ethical scenarios.

Trusts and Estates

This chapter discusses the basis of inherited assets and the character of gain or loss on the sale of inherited assets. It explains when gifts in contemplation of death are included in the gross estate, and how irrevocable life insurance trusts and qualified personal residence trusts can reduce estate tax. This chapter also reviews when section 529 qualified tuition plan assets may be subject to gift tax, and when those assets are included in the gross estate of the plan owner or beneficiary.

Agriculture and Natural Resource Issues

This chapter is taught at all in-person schools and at the November 21–22 webinar. This chapter covers emerging topics that affect farmers and ranchers, including retiring a farm asset, farm rentals, income averaging, divisive reorganizations to divide a farming corporation, and borrowing and lending tax issues for farmers and ranchers.

Business Entity Tax Issues

This chapter examines issues that pertain to business entities, including organizational standards for LLCs seeking exempt status, 501(c)(4) social welfare organizations requirements, and reporting requirements for S corporation basis.

Business Tax Issues

This chapter discusses some of the issues that tax practitioners encounter when they prepare returns for clients who operate a business. Topics include nightly rentals, multilevel marketing, and sale of a business.

IRS Issues

This chapter covers issues the IRS targets as key issues for practitioners. Topics include employer identification numbers, liens and levies, injured spouse allocation, gig economy, IRS transcripts, and Tax Pro and online accounts.

Individual Tax Issues

These chapters cover several issues tax practitioners encounter when preparing individual income tax returns, including the child tax credit and reconciling the advance credit, divorce tax issues, education credits, and standard vs. itemized deductions.

Current Partnership Tax Issues

This chapter discusses partnership elections. It also explains tax issues when partnership interests are issued in connection with the performance of services. Finally, this chapter discusses tracking and reporting partnership basis.

Tax Practice and Procedure

This chapter explains important tax practice and procedural issues, including amended and superseded returns, powers of attorney, and IRS assessments. It also explains the situations in which the IRS can hold a third party liable for the tax liability of another taxpayer as a transferee, nominee, or alter ego.
